

Jaehyun Park

Ph.D. Candidate, Data Mining Lab @ KAIST

✉ jh.park@kaist.ac.kr • [github.io](https://github.com/cabbalett) • [in](#) cabbalett

RESEARCH INTERESTS

- Data-centric AI for LLM post-training.
- Weak supervision and training signal quality for large language models.
- Human vs. AI-generated supervision: roles, failure modes, and effects on model learning.
- Data selection and curation for effective fine-tuning of large-scale models.

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST)

South Korea

Ph.D., Computer Science

2025.03–Present

Advisor: Prof. Jae-Gil Lee

Korea Advanced Institute of Science and Technology (KAIST)

South Korea

M.S., Computer Science

2023.03–2025.02

Advisor: Prof. Jae-Gil Lee

Korea Advanced Institute of Science and Technology (KAIST)

South Korea

B.S., Electrical Engineering / Computer Science

2018.03–2023.02

PROFESSIONAL EXPERIENCE

KRAFTON AI

Research Intern

2025.03–2025.08

Data-Centric AI

SK Hynix Information Sensor Technology

Intern

2021.06–2021.08

Information Sensor Technology

PUBLICATIONS

- [1] **Jaehyun Park***, Minyoung Ahn*, Minkyu Kim, Jonghyun Lee, Jae-Gil Lee, and Dongmin Park, “See and Fix the Flaws: Enabling VLMs and Diffusion Models to Comprehend Visual Artifacts via Agentic Data Synthesis,” *IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR)*, 2026.
- [2] Giyeong Oh, Junghyun Lee, **Jaehyun Park**, Youngjae Yu, Wonho Bae, and Junhyug Noh, “Random Is Hard to Beat: Active Selection in Online DPO with Modern LLMs,” *ICLR Workshop on I Can’t Believe It’s Not Better (ICLRw)*, 2026.
- [3] **Jaehyun Park**, Dongmin Park, and Jae-Gil Lee, “Active Learning for Continual Learning: Keeping the Past Alive in the Present,” *The Thirteenth International Conference on Learning Representations (ICLR)*, 2025.
- [4] Yooju Shin, **Jaehyun Park**, Susik Yoon, Hwanjun Song, Byung Suk Lee, and Jae-Gil Lee, “Exploiting Representation Curvature for Boundary Detection in Time Series,” *The Thirty-eighth Annual Conference on Neural Information Processing Systems (NeurIPS)*, 2024.

AWARDS

- Dean’s List, KAIST, 2022.

LANGUAGES

Korean Native speaker

English Fluent

Portuguese Elementary

REFERENCE

Professor Jae-Gil Lee

Professor at the School of Computing, KAIST, and leader of the Data Mining Lab.
